Profile

Front-End Developer with a proven ability to collaborate effectively with senior developers while spending extra time to be mentored. Enjoy working closely with team members to ensure workloads are effectively redirected to bottlenecks and personally picking up the slack when necessary. With a passion for both personal growth and for software development, I attended a 100+ hours of lectures and spent 500+ hours in coding bootcamps to learn new features while sharpening existing skills. Ready to apply my passion for coding to a talented engineering team to develop quality solutions for business purposes.

Area manager with over 11 years of experience in managing a division of over 170 people. Achieving set goals within the specified time frame.

Create, simplify ways of solving tasks to increase productivity and profitability. Excel in a rapidly changing environment and manage multiple projects from concept to implementation.
